Learn from the sounds of nature. The process of life keeps happening. Everything in nature is connected. We are part of the beauty of the world. Thank God the design of the world is out of our hands. . . . We can't always see where we are in the big picture. Listen to nature's silence. Everything in nature is connected. We are part of the beauty of the world. Thank God the design of the world is out of our hands. . . .
